- Founded in 2020 and run weekly remote English and science lessons for a Kuala Lumpur NGO housing 70+ orphans: 6+ years, 600+ hours taught, and a fundraiser raising $8,000+ for e-learning tools; featured in Malaysian press

Science Olympiad — Upper and Middle School Co-Head (11, 12) *Sep 2023 – Present*

- Lead weekly meetings for 66+ members; coach 23 events; write 20 practice tests/yr; reached States every year; doubled membership to 66+

Varsity Fencing Team — Varsity Saber Captain (12), Varsity Fencer (9–11) *Sep 2023 – Present*

- Four-year varsity starter; fencing since age six; run practices 4x/week for 8 new fencers, teach footwork and sparring, coach at 10+ meets/yr

Ballroom Dance — Competitive Dancer, International Standard (Independent / USA Dance) *2014 – Present*

- Dancing for 12 years; compete about 12 times a year in International Standard (5 dances) against adult and Pro-Am fields in 5+ states

SiMS Center (Success in Math & Science) — Peer Mentor *May 2026 – Present*

- Selected by application; give drop-in math and science help to Upper School students at PDS's peer-tutoring center

ObCHESSed (PDS Chess Club) — Co-Founder *Sep 2025 – Jun 2026*

- Co-founded the club and grew it past 40 members in one year; ran weekly sessions and internal tournaments

PROJECTS & ENTREPRENEURSHIP

NapkinNotes — Co-Founder & Lead Developer *Aug 2025 – May 2026*

- Co-founded a web app that turns PDS students' class notes, from handwritten scans to PDFs, into searchable AI-summarized study resources; live at napkinnotes.net

Phase Spector — Co-Developer & Designer *Jan 2026 – May 2026*

- Co-developed (3-person team) a wave-based arcade shooter in Godot 4.6 around a time-rewind mechanic, released in the browser to 500+ PDS students; built three enemy types, rewind playback, projectile deflection, difficulty scaling, and leaderboards

Stock Price Prediction ML — Lead Researcher, Independent Research *Jun 2024 – Present*

- Led a study testing whether tweets help AI predict stock prices (LSTM; AAPL, TSLA, MSFT); analyzed 80K+ tweets on 3 stocks and found sentiment hurts accuracy (average RMSE +32%); paper drafted for workshop review

EMPLOYMENT EXPERIENCE

Rutgers University, Department of Computer Science — Research Intern, Agentic AI (Prof. Yongfeng Zhang) *Apr 2026 – Present*

- Tested whether teams of LLM agents can negotiate power-sharing across 30 homes during blackouts; built the microgrid simulator and agent negotiation layer; paper drafted for an AAAI-27 workshop

Hongik University — Research Intern, Prof. Eunsoo Choi's Civil Engineering Lab *Seoul | Aug 2026*

- Tested how shape memory alloys strengthen concrete against earthquakes; ran daily lab experiments with graduate students and built computer simulations of my own test results

Zhongke Guoguang Quantum (GGQuanta) — AI/ML Research & Web Development Intern *Beijing | Jul 2026*

- Authored and stress-tested AI agent skills for QuantaMate, the research assistant of China's first photonic quantum chip company (shipped at its July 2026 launch); developed its production English-Chinese website with an interactive 3D chip model

Mundial Financial Group — Intern, Investment Banking *Jul 2025 – Sep 2025*

- Led a full website redesign with the CEO, including competitor analysis of 10+ sites, all major web content, and the firm's social media

Chipotle Mexican Grill — Crew Member, Counter Service & Online-Order Prep *Yardley & Warrington, PA | Sep 2025 – May 2026*

- Worked the school year through 200-order dinner rushes; built orders at the counter and for online/app pickup; covered any station needed

Achievable — Content Marketing Intern *Jul 2024 – Oct 2024*

- Wrote 15+ published blog posts and guest articles for an online exam-prep company

Capital Health Regional Medical Center — Junior Volunteer *Jul 2024 – Aug 2024*

- 66+ hours in the nursing units: patient cart programs, patient support, data entry, and discharge packets
